Legacy of Community Giving

On July 21, 1914, a groundbreaking ceremony was held for the old Carlisle Hospital. No one knew what health care would look like 100 years later. Some, however, planned their estates and made generous gifts to benefit future generations.

Today, their generosity allows Partnership for Better Health to invest more than **\$2 million** each year in community initiatives that promote healthy lifestyles and improve access to affordable health care.

Originating in 2001 from the sale of the Carlisle Hospital and Health Services, Inc., we seek to promote responsible health practices and enhance access to affordable health care for all. The need for funding has become greater than our allocated resources can support. At this time, we are turning to the **community** to assist with our mission.
